RESTRICTED

10 Oct 1951

Mr. Jack Gorrie
Acting Chairman
National Security Resources Board

Dear Mr. Gorrie:

This letter is in response to your inquiry regarding views of the Central Intelligence Agency on the study "Report on Port Capacity Protection" prepared by Admiral O'Neill, Commandant of the U. S. Coast Guard Headquarters.

The appropriate officials in this Agency have reviewed the study in the light of your questions submitted for our comment or suggestion. This review does not indicate that the activities within this Agency would be affected by this report. Nor will such activities have any effect on the substance of the report except in that a study is currently in progress here to determine whether intensification of the collection of data on ship movements, types of cargoes, and data regarding ship personnel is practicable and whether or not the analysis of such data will provide information which would serve to alert the Coast Guard at ports of entry.

In view of the fact that this Agency has no responsibilities bearing upon the recommendations of the report there are no suggestions to be offered in evaluating these recommendations.
